Cornell University College of Engineering REU Program for Undergraduates

- Requested expenses of $5,000 will be awarded to all participants. Lodging and food allowance will also be provided. Please note that our program has limited financial resources for supporting students who are not citizens or permanent residents of the United States.

- Successful applicants should have strong academic records and have completed at least one laboratory course prior to application. Previous experience performing independent laboratory research is not required. Please students entering their junior or senior year are given preference.

- Applicants must be IUPUI students. Preference will be given to students who are citizens or permanent residents of the U.S. or its possessions.

- The Department of Genome Sciences, in partnership with the National Science Foundation, provides summer research opportunities for undergraduate students. We are looking for students who aspire to enroll in either Master’s or PhD programs after their undergraduate studies.

Colorado State University REU SITE in COASTAL OCEAN PROCESSES

- Duration: May 24 - July 30

- Stipend: A $4,500 stipend is provided for Kennedy Krieger Institute fellows and a $5,933 stipend is provided for out-of-state fellows.

- Housing: Housing and round-trip travel are also available.

- Application: See website for programs and details.

- Contact Information: Connie May, connie.may@case.edu, (216) 368-6896

Dr. James A. Ferguson Emerging Infectious Disease Fellowship

- Duration: January (multiple offers)

- Requirements: Applicants who would like to work in a computational lab should have had some college-level science coursework and have knowledge of programming skills.

- Application: Your resume, a one-page essay, and three letters of recommendation are required.

- Contact Information: Connie May, connie.may@case.edu, (216) 368-6896

Centers for Disease Control and Prevention (CDC) Various Research Opportunities

- Duration: January (multiple offers)

- Stipend: $4900 stipend

- Requirements: Please see website for current CDC openings, deadlines, support, and requirements.

- Contact Information: See website for CDC openings, deadlines, support, and requirements.

Genome Sciences Summer Research (SURP)

- Duration: May 24 - July 30

- Requirements: Competitive applicants will have had some college-level science coursework.

- Application: Visit the REU SURP website at BTI and Cornell; students must be US citizens or permanent residents of the US or its possessions.

- Contact Information: See website for CDC openings, deadlines, support, and requirements.

Program  
University of Southern California  
HTG is an 8 week summer research program in  
which students conduct research in the laboratories  
of a KSOM facility serving as mentors. Students  
will be provided with both a clinical and basic  
science perspective. Additionally, disposition  
and passive formal instruction in basic physiology  
and biostatistics. At the end of the summer session,  
students will present their research findings to the  
KSOM community  
Candidates must have completed at least 2 years of undergraduate study and be an underrepresented student as designated by NIH. Also have an overall GPA of 3.0 or greater.

NASA Develop Sciences Program
2/26/2021 June 7 – August 13, 2021
At least 18 years of age, ability to provide personal transportation to and from the location.

University of Florida Condensed Matter and Materials Physics REU
2/1/2021 June 1- August 6, 2021
$5000 total. U.S. citizen or permanent resident; must be planning to return to an undergraduate degree program and be a U.S. Citizen willing to undergo a security background check.

University of California Irvine Undergraduate Research Program to Increase Diversity in Research
2/1/2021 June 1- August 6, 2021
Applicants must be US citizens or permanent residents and have a minimum GPA of 2.5. Applicants must have completed at least one year of undergraduate education.

University of Florida Office of Undergraduate Research
2/1/2021 June 1- August 6, 2021
University of Florida Summer Undergraduate Research Program to Increase Diversity in Research
2/1/2021 June 7 – August 6, 2021
Applicants must be US citizens or permanent residents and have a minimum GPA of 2.5. Applicants must have completed at least one year of undergraduate education.

University of Colorado Denver GEMS-HP program
2/1/2021 June 1- August 6, 2021
U.S. citizen or permanent resident; currently enrolled in a health professional program; from one of the following underrepresented student populations: Low-income/financial need, First-Generation college students, ethnic identity as African American, Hispanic, American Indian, Alaska Native, Southeast Asian, or Pacific Islander. Have a minimum 3.0 overall GPA and 3.2 science GPA.

University of Florida Condensed Matter and Materials Physics REU
2/1/2021 June 1- August 6, 2021
Undergraduates who qualify for the REU Program receive a competitive stipend, assistance with travel expenses and housing. Students must be either a U.S. citizen or have permanent residency to qualify for NSF funding. Students from groups under-represented in the sciences (African Americans, Native Americans, Hispanics, and Pacific Islanders) are encouraged to apply.

University of Georgia Population Biology of Infectious Diseases
January (multiple offers) May 26-July 23 University of Georgia
-Stipend of $4,500 plus food stipend of $200 – $2500 total

Contact Allen Bryson at ajbryson@uic.edu.

The University of Illinois at Chicago Research Program  
**2/5/2021**  
May 27, - July 31 2021.  
University of Illinois  
The program assesses the cost of travel (up to $550) and housing for students who do not live in Chicago or the surrounding suburbs. Students receive up to $4,000 to work with talented faculty in a Research II Institution with state-of-the-art facilities. That experience includes instruction in research development which prepares students for his demands of graduate study. They also learn how to apply for admissions and financial support for graduate school. In addition, SROP students are offered opportunities to present their research projects twice during the summer calendar. Must be a sophomore or a junior.

http://www.grad.uic.edu/diversity/srop/

University of Iowa Interdisciplinary Summer Undergraduate Research Program  
**2/1/2021**  
May 27 - July 30, 2021.  
University of Iowa  
$3,750 stipend (housing provided; university of Iowa residence hall) + up to $500 travel allowance  

Only U.S. citizens and permanent residents are eligible for this program. Students who have completed the sophomore or junior year, residing in any area of the biological sciences at an accredited four-year college or university are eligible. Women and members of underrepresented minority groups are encouraged to apply.

https://www.grad.uiowa.edu/biomed-scholars-summer-undergraduate-research-program/

University of Massachusetts Medical School Combined Summer Undergraduate Research Opportunity  
**2/1/2021**  
Massachusetts  
$3,500 stipend and meal allowance. Travel, housing, and meals will be provided. Eligible junior or senior in fall 2019. The citizens or permanent residents of the US, enrolled full-time in an accredited four-year higher education institution and obtain junior or senior status in fall 2019-2020. Demonstrate an interest in pursuing graduate study in one of the behavioral, social or economic sciences. Will have taken basic statistics or research methodology course. Possess an excellent academic record including a 3.0 or better GPA. See website for more details.

http://umassmed.edu/education/md-phd-program/um-smart-undergrad-summer-program/

University of Michigan Rackham Graduate School Summer Research Opportunity Program  
**2/25/2021**  
June 1 - August 5 2021.  
University of Michigan  
$4,500 stipend and room and board, lunch plan, GRE prep  

U.S. citizens or permanent residents. Must be a junior or senior and have an interest in pursuing UM graduate school. As a summer student at Michigan you will receive an ID card (i-card). The i-card is the Michigan identification card (MIDC) and is a Michigan driver’s license, pass. Also serves as a library user card and a free bus pass. U.S. Citizen or Permanent Resident. Must be a junior or senior and have an interest in pursuing graduate study in one of the behavioral, social or economic sciences. Will have taken basic statistics or research methodology course. Possess an excellent academic record including a 3.0 or better GPA. Email application to ajbryson@uic.edu.

Announce received and filled on a rolling basis until all slots are filled.  
University of North Carolina – Chapel Hill  
Stipend not specified  

U.S. citizens or permanent resident, rising juniors and seniors from underrepresented populations. Contact allenbryson@uic.edu.
University of Southern California Summer REU: Coral Ocean Systems
February 15, 2021
June 7 – August 17, 2021
University of Southern California
A stipend of $500/week housing at the WMSC on Catalina Island and at USC’s main campus in Los Angeles. Access to snorkeling, kayaking, wet suits, and more.
Applicants must be U.S. citizens, U.S. nationals or permanent residents of the U.S. or be eligible for the program. Students must also have completed at least one year of undergraduate study by the summer and must plan to be enrolled in an undergraduate degree program during the following fall. Special consideration is given to students who attend a university or college in Southern California and/or institutions with limited research training opportunities, but we encourage applications from all students nationwide. Participation in the NSF REU program requires eligibility. We especially encourage students from underrepresented groups in STEM fields to apply.
https://dornsife.usc.edu/wmics/summer/gssummer/apply.htm

University of Georgia Summer programs
Multiple deadlines
Varies by department
University of Georgia
Up to $600/week but varies by department
To participate in the Undergraduate Biology Education Research REU Site at UGA, you must be planning to return to an undergraduate degree program in the subsequent fall. Particularly, you must not have graduated prior to the year of the program. Additionally, you must be a US citizen or permanent resident. Applications from students from minority-serving institutions and/or majors in biology, education, psychology, anthropology, sociology, and statistics are especially encouraged.

University of Tennessee Health Science Center Summer Research Scholars Program
2/1/2021
University of Tennessee
Stipend not specified
U.S. citizen or permanent resident; Undergraduate Students (Freshmen-Juniors)
http://www.uthsc.edu/RCF/program/uthscscholarsprogram.html

University of Texas School of Medicine Pharmacology Summer Undergraduate Research Fellowship Program
3/1/2021
June 2, 2021 - August 6, 2021
University of Texas Southwestern Medical Center
$5,000 stipend to help defray the cost of participation in the program. This amount, intended for housing and living costs, will be divided into two payments, which will be distributed at the first of July and the first of August. UTHSCSA will help participants locate housing (extended stay hotels near the site).
Applicants to the summer program must be classified as undergraduate students, have a grade point average of 3.5 or higher, and have completed at least one semester each of college-level Biology and Chemistry by the end of the spring semester of the year of application. Although all interested individuals are encouraged to apply, preference will be given to students who are considering applying to a Ph.D. program in Pharmacology or the Biomedical Sciences.
https://biorxiv.org/content/10.1101/2021.01.28.426340

Texas A&M University Medicine Summer Research Program
Now accepting
May 26th – July 30th, 2021
Texas A&M University
Program participants will receive a stipend of $4,800 for the 10-week program period. This stipend will be dispersed in two installments of $2,400.
The objectives of this program are substantial and rigorous and require full-time student commitment. Participants are expected to complete the entire program and present their projects at Research Day.
https://medicine.tamu.edu/amt/srps/

University of Virginia School of Medicine Summer Research Scholarship Program (SSRP)
2/1/2021
The University of Virginia School of Medicine
Stipend paid housing, meals plan
- US citizens or permanent residents
- members of a group that is underrepresented nationally in the biomedical sciences: African-American, Hispanic, Native American, or Pacific Islander
- Currently enrolled in and returning to college following the summer research program to continue their undergraduate studies. We expect that competitive applicants will have had some college-level science coursework.
- Applicable to work in a computational lab should have had college-level calculus and basic programming skills.
- willing to inform us of your career direction after completing your undergraduate degree, whether you opt for graduate school, medical school, or another career path
Applicants must be U.S. citizens or permanent residents between their sophomore and senior years who have not graduated before the program begins, have a grade point average of at least 3.0, and strong interest in a career in biomedical research. Students who are African-American, Hispanic, Native American, Southeast Asian, Native Alaskan or Native Pacific Islander OR who are from low-income homes OR who are the first in their family to attend college OR who attend small liberal arts institutions without broad research facilities are strongly encouraged to apply.

University of Washington Genome Science Summer Research
2/1/2021
June 21 - August 20 2020
University of Washington
$4800 Stipend paid housing, meal plan
- US citizens or permanent residents
- members of a group that is underrepresented nationally in the biomedical sciences: African-American, Hispanic, Native American, or Pacific Islander
- Currently enrolled in and returning to college following the summer research program to continue their undergraduate studies. We expect that competitive applicants will have had some college-level science coursework.
- Applicants who would like to work in a computational lab should have had college-level calculus and basic programming skills.
- willing to inform us of your career direction after completing your undergraduate degree, whether you opt for graduate school, medical school, or another career path
Applicants must be U.S. citizens or permanent residents between their sophomore and junior years who have not graduated before the program begins, have a grade point average of at least 3.0, and strong interest in a career in biological research. Students who are African-American, Hispanic, Native American, Southeast Asian, Native Alaskan or Native Pacific Islander OR who are from low-income homes OR who are the first in their family to attend college OR who attend small liberal arts institutions without broad research facilities are strongly encouraged to apply.

University of Wisconsin-Madison Integrated Biological Sciences Summer Research Programs (IBS-SRP)
2/15/2021
June 1 – August 7, 2021
University of Wisconsin
More information is on the website
http://www.medicine.wisc.edu/srp/
University of Rochester: Department of Physics Undergraduate Research Opportunity

02/07/2021

June 2 - August 7, 2021

Rochester, NY

Participants receive a stipend of $5,000 for the 10-week program. Housing in an on-campus residence hall with other REU students is provided for students from outside the University of Rochester, along with supplemental compensation for meals/incidentals for those living off-campus. Students living locally may commute from home. Travel expenses to Rochester are provided for non-Rochester students.

Most students must have completed at least four semesters of college physics and math. Students should have an overall GPA of 3.0 or greater, with a major in engineering or physics. Computer programming coursework and/or experience is a plus.

Preference will be given to students interested in research and/or considering an advanced degree. Members of underrepresented minorities or students with disabilities are strongly encouraged to apply.

Participants in the REU program must be US citizens or permanent residents. Students who will complete their bachelor degree by May of this academic year are not eligible for the program.
